MAKE A PLAN

Visit www.redstickready.com for more preparedness tips and information on how to make a plan, build a kit and utilize the buddy system.

BUILD A KIT

When an emergency happens, you and your family need to be ready to respond. You may need to survive on your own for several days. Being prepared means having your own food, water and other supplies to last for at least 72 hours. Use the Disaster Supply checklist, which can be found on the RSR website, to see which items are necessary for your kit.

UTILIZE THE BUDDY SYSTEM™

Working together with other residents of your neighborhood can save lives and property. Communicate with your neighbors to plan how the neighborhood can work together before, during, and after a disaster. Consider your elderly neighbors and offer to help them with getting prepared. Check to see that they have family or someone looking out for their well-being. Know what special skills your neighbors might have and how they can best be utilized in an emergency situation. Above all else, check with your friends, family, and neighbors and ensure everyone is prepared before an emergency happens. Remember, don't just be ready, be **Red Stick Ready!**
