

Affordable Connectivity Program Helping Households Connect

Dear Head Start Families,

B&B Education Solutions, focuses on bringing the FCC's (Federal Communication Commission) approved Affordability Connectivity Program (ACP) to our most underserved communities serving individuals and families ages 0 to 100 years.

As part of the Bipartisan Infrastructure Law, President Biden and Vice President Harris worked with both Democrats and Republicans to create the ACP which is a **FREE**, permanent, federal program that launched January 2022.

B&B Education Solutions and our Telcom Partners (federally approved ACP provider) are helping families take advantage of this **FREE** federal government program where qualified households get a **Free Tablet, Free Internet, Free Data, Free Hot Spot and Free Assigned Phone Number.**

What Qualifies You?

- MEDICAID
- SNAP, WIC
- SSI
- Household Income Within 200% or Less of Federal Poverty
