June 24, 2014

The Honorable Mayor-President
and Members of the Metropolitan Council
City of Baton Rouge
Parish of East Baton Rouge
Baton Rouge, Louisiana 70802

Dear Mayor-President and Council Members:

Pursuant to Louisiana State Statutes and The Plan of Government, I hereby issue the Comprehensive Annual Financial Report (CAFR) for the consolidated government of the City of Baton Rouge and Parish of East Baton Rouge (City-Parish) for the fiscal year ended December 31, 2013. The Accounting Division of the City-Parish Finance Department prepared this report in accordance with Generally Accepted Accounting Principles (GAAP). We believe the data, as presented, is accurate in all material respects; that it is presented in a manner designed to set forth fairly the financial position and results of operations of the City-Parish as measured by the financial activities of its various funds and the entity-wide presentation; and that disclosures necessary to enable readers to gain an understanding of City-Parish financial affairs have been included. Responsibility for the accuracy of the presented data and the completeness and fairness of the presentation, including all disclosures, rests with the local government.

The City-Parish financial statements have been audited by Postlethwaite & Netterville, APAC, a firm of licensed certified public accountants. The goal of the independent audit was to provide reasonable assurance that the financial statements are free of material misstatement. The independent audit involved examining, on a test basis, evidence supporting the amounts and the disclosures in the financial statements; assessing the accounting principles used and significant estimates made by management; and evaluating the overall financial statement presentation. The independent auditor concluded, based upon the audit, that there was a reasonable basis for rendering an unmodified opinion that the Consolidated Government of the City of Baton Rouge, Parish of East Baton Rouge, Louisiana, financial statements for the fiscal year ended December 31, 2013, are fairly presented in conformity with GAAP. The independent auditor's report is presented as the first document of the financial section of this report.

The City-Parish is required to undergo an annual single audit in conformance with the provisions of the Single Audit Act of 1996 and the U.S. Office of Management and Budget Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations. Information related to this single audit, including the Schedule of Expenditures of Federal Awards, findings and recommendations, and the auditors' reports on the internal control structure and compliance with applicable laws and regulations, is presented immediately following the Statistical Section of this publication.

GAAP requires that management provide a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of *Management's Discussion and Analysis (MD&A)*. This letter of transmittal is designed to complement the MD&A and should be read in conjunction with it. The City-Parish's MD&A can be found immediately following the report of the independent auditors.

Profile of the Government

The Parish of East Baton Rouge was established as a division of government of the *West Florida Republic* in 1810. The Parish later became a local governmental unit of the State of Louisiana and the United States when Louisiana was admitted to the Union in 1812. The City of Baton Rouge was incorporated as a municipality on July 6, 1817. These two government entities operated as separate local government units until January 1, 1949. At an election on August 12, 1947, the voters of both the parish and the city adopted the current Plan of Government (as amended) which consolidated the administration of most local government services for the city and the parish. Baton Rouge was one of the first consolidated forms of local government established in the United States. The elected Mayor-President serves as the leader of the executive branch of City-Parish government. The legislative branch is the elected Metropolitan Council, which is composed of 12 district representatives.

The City-Parish provides a full range of services to the general public, including police and fire protection, emergency medical services, public works, social services, public transportation, planning and zoning, economic development, an airport, a convention center, construction and maintenance of streets and infrastructure, libraries, courts, general administrative services, sewage treatment, and solid waste collection and disposal.

A determination of the financial reporting entity to be included in this CAFR is made through the application of criteria established by section 2100 of the Governmental Accounting Standards Board (GASB) *Codification of Governmental Accounting and Financial Reporting Standards* (as revised by GASB Statement No. 61 – The Financial Reporting Entity: Omnibus). A complete explanation of the financial reporting entity is included in the Summary of Significant Accounting Policies in the Notes to the Financial Statements.

The City-Parish financial reporting entity consists of the following:

- The Primary Government - This is the City-Parish (all funds under the auspices of the Mayor-President and the Metropolitan Council).
- Legally separate component units - These units of government are legally separate from the City-Parish government but have a sufficiently close relationship with the government to warrant inclusion in the consolidated financial report.

The financial statements included in this CAFR are as follows:

<u>Name of Organization</u>	<u>Type of Unit</u>
➤ The City-Parish	Primary Government
➤ City of Baton Rouge and Parish of East Baton Rouge Employees' Retirement System	Blended Component Unit
➤ District Attorney of the Nineteenth Judicial District	Discrete Component Unit
➤ Nineteenth Judicial District Court	Discrete Component Unit
➤ Nineteenth Judicial District Court Building Commission	Discrete Component Unit
➤ East Baton Rouge Parish Family Court	Discrete Component Unit
➤ East Baton Rouge Parish Juvenile Court	Discrete Component Unit
➤ East Baton Rouge Parish Clerk of Court	Discrete Component Unit
➤ East Baton Rouge Parish Redevelopment Authority	Discrete Component Unit
➤ Cytreniks Group/King Hotel Special Taxing District	Discrete Component Unit
➤ Bluebonnet Convention Hotel Taxing District	Discrete Component Unit
➤ Capital Area Transit System	Discrete Component Unit

An explanation of the accounting policies of the City-Parish is contained in the Notes to the Financial Statements. The basis of accounting, fund structure, and other significant information on financial policies is explained in detail in the Notes to the Financial Statements.

Budgetary control is maintained by the encumbrance of appropriations with purchase orders prior to their release to vendors. Purchase orders that exceed appropriation balances are not released unless additional appropriations are made available. The annual operating budget, or financial plan, is proposed by the Mayor-President and enacted by the Metropolitan Council. Management control for the operating budget is maintained at the fund and department level. Additional details on the budget process are explained in the Notes to the Financial Statements.

Budget-to-actual comparisons are provided in this report for each individual governmental fund. For the General Fund, Library Board of Control Special Revenue Fund, and Grants Special Revenue Fund, this comparison is presented in Exhibits A-7 through A-9. The Capital Projects Fund budget statement is presented on a project length basis as legally adopted by the Metropolitan Council on Exhibit B-3. For other governmental funds, the annual budget comparison is presented in the Combining and Individual Fund Statements and Schedules, Exhibits B-4 through B-31.

Under The Plan of Government, the Finance Department is entrusted with maintaining accounting systems for the City, Parish, and districts over which the Metropolitan Council is the governing body, in accordance with the best-recognized practices in governmental accounting. It keeps the records for, and exercises financial and budgetary control over, each City-Parish department, office, and agency.

In developing and evaluating the accounting system of the City-Parish, the Finance Department considers the adequacy of internal accounting controls. Internal accounting controls are designed to provide reasonable, but not absolute, assurance regarding the safeguarding of assets against loss from unauthorized use or disposition and regarding the reliability of financial records for preparing financial statements and maintaining accountability for assets. The concept of reasonable assurance recognizes that the cost of control should not exceed benefits likely to be derived and that the valuation of costs and benefits requires estimates and judgments by management.

As a recipient of federal and state financial assistance, the City-Parish government is responsible for ensuring that adequate internal controls are in effect. All internal control evaluations occur within the framework described. The Finance Department believes that the internal controls of the City-Parish adequately safeguard assets and provide reasonable assurance of the proper recording of financial transactions.

FACTORS AFFECTING FINANCIAL CONDITION

Economic Condition and Outlook

According to the 2010 Census, East Baton Rouge is the largest parish in Louisiana. Its population grew by 6.6 percent since 2000. The City of Baton Rouge, the state capital, is located on the Mississippi River in the southeast region of the state and is a major center for commerce, industry, tourism, and many diverse cultural activities. The City-Parish is the principal home of two major state universities: Louisiana State University and Southern University. The Baton Rouge MSA has the largest concentration of chemical industry employment in the state and is the home of the nation's fourth largest refinery.

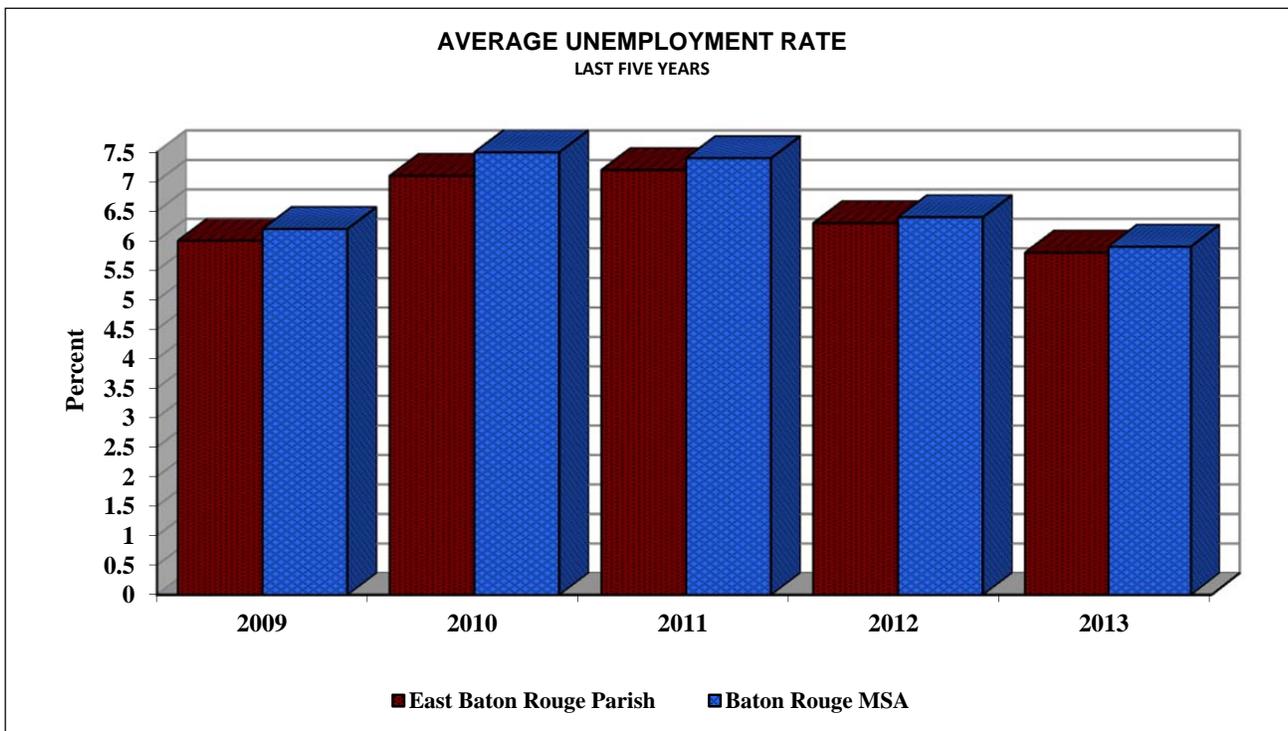

A number of significant companies engaged in oil refining, petrochemical processing, and wood products are found in the industrial corridor along the Mississippi River near Baton Rouge. These industries are major employers of Baton Rouge's labor force. Other important industries include government, construction, banking and financial services, insurance, real estate, and wholesale and retail trade. Recovery from the national economic downturn has remained steady in the Baton Rouge MSA.

According to the United States Department of Labor, Bureau of Labor Statistics, the annual average rate of local unemployment decreased 0.5% in East Baton Rouge Parish and decreased 0.5% in the Baton Rouge MSA in 2013, as reflected in the following chart:

	<u>East Baton Rouge Parish</u>	<u>Baton Rouge MSA</u> ⁽¹⁾
2009	6.0	6.2
2010	7.1	7.5
2011	7.2	7.4
2012	6.3	6.4
2013	5.8	5.9

⁽¹⁾ Metropolitan Statistical Area (includes East Baton Rouge, West Baton Rouge, Livingston, Ascension, Iberville, St. Helena, Pointe Coupee, East Feliciana, and West Feliciana).

Local economists are predicting job growth in 2014 and 2015 for our region. In October 2013, Dr. James A. Richardson, John Rhea Alumni Professor of Economics at Louisiana State University, and Dr. Loren C. Scott, Professor Emeritus of Economics at Louisiana State University, issued *Louisiana Economic Outlook* (LEO) on Louisiana’s major metropolitan statistical areas. Following are their predictions of economic growth in East Baton Rouge Parish and the Baton Rouge MSA for 2014-2015.

“The 9-parish Baton Rouge MSA is heading into an industrial expansion like none other in its history.

The very strong projected performance for the Baton Rouge MSA can be heavily traced to the boom in the area’s chemical industry...natural gas prices have fallen sharply in the U.S. but have actually risen in Europe. Chemical firms are prodigious users of natural gas. The price advantage in the U.S. has been translated into a price advantage for our chemicals over those produced in Europe. Consequently, U.S. firms are cutting into Europe’s share of the world chemical market. This has led to both expansions of existing firms and announcements of brand new firms in the MSA.

These projects include the following:

- *Honeywell recently announced it will invest \$78 million at its two Baton Rouge sites.*
- *Katoen Natie is building a \$150 million, two million square foot plastics storage and distribution facility in Baton Rouge.*
- *DMC Carter Chambers is making a \$10 million capital investment in Baton Rouge that will produce 80 new jobs.*

In addition to these chemical-related projects there are sizeable investments being made in other manufacturing sectors in the MSA.

By the end of this year, Genesis Energy will have completed a \$125 million project that involves (1) an 18-mile pipeline from Port Hudson to the ExxonMobil Refinery and (2) 200,000 barrels of oil storage capacity (+50 jobs).

This region is enjoying economic development victories in areas other than those associated with low natural gas prices. One of those vibrant new niches for Baton Rouge is the high tech area. A major win for the city was in May when IBM announced it would bring a new 800-person Technology Center to downtown.

Ameritas---an information technology and software development company---has opened in Chase Tower South. By 2016, Ameritas will employ 300 people at an average salary of \$63,000 plus benefits.”

Revenue growth continued to improve in 2013, as Baton Rouge experienced signs of recovery from the national recession on the local economy. General sales and use tax (2 percent) collections for General Fund operations and debt service dedications of the City and Parish combined were \$176.5 million, net of Tax Increment Financing District adjustments, an increase of \$2.1 million over 2012 revenues, a 1.17 percent increase. Sales tax collections for the ½ percent sewerage tax and the ½ percent road and street improvement tax both increased by 2.02 percent during fiscal year 2013. The general sales and use tax plays a significant role in financing the operations of the General Fund.

Major Initiatives in 2013

Construction on Repentance Park was completed in March 2013. Designed to provide a venue for large events, as well as passive recreation and a unique water feature, Repentance Park serves as a component of the southern anchor of the Arts and Entertainment District. The park connects the LASM, River Road, Old State Capitol, River Center, City Hall, Galvez Plaza and the Town Square.

The construction of a permanent canopy stage in Galvez Plaza “The Crest,” was also completed in 2013. The stage features a performance truss system that can be hoisted to accommodate lighting and speaker systems. Downtown concerts and events, such as the popular “Live After Five” concert series, are held in this location.

During 2013, the Library Board of Control completed construction of the new Main Library. Based on its design, this new 127,000-square-foot facility qualifies for the Leadership in Energy and Environmental Design (LEED) Silver certification. The Fairwood Branch Library was substantially complete in December of 2012, and the opening ceremony was held on March 10, 2013. Planning will be completed and construction is anticipated to begin on the River Center branch library in 2014.

Planning and engineering will also begin in 2014 for the Downtown Greenway project, which will provide a functional pedestrian and bicycling corridor that utilizes the existing interstate infrastructure to link inner city residential neighborhoods and LSU to parks, businesses, and cultural attraction. It will also connect area attractions, museums, and existing trailhead links such as the South Boulevard trailhead at the levee. The greenway will feature lighting, landscaping, signage, recreational links and facilities, and public art as well. The project was selected by the EPA to participate in its “Greening America’s Capitals” program.

Long-Term Financial Planning

Sewer Improvement Program

The City-Parish entered into a consent decree with the United States Environmental Protection Agency (EPA) and the Louisiana Department of Environmental Quality (DEQ) relative to wastewater improvements in East Baton Rouge Parish on March 14, 2002. The consent decree requires the City-Parish to make various wastewater treatment plant and sanitary sewer infrastructure improvements in order to reduce sanitary sewer overflows in the sewer collection system and meet wastewater discharge permit requirements under wet weather conditions. The consent decree deadline for completing the Sewer Capital Improvements Program is December 31, 2018.

On July 10, 2007, EPA and DEQ formally approved the City-Parish's request to revise the original Remedial Measures Action Plan 2 (RMAP2) Sanitary Sewer Overflow Capital Improvements Program from a complex tunnel system with some rehabilitation and pump station upgrades to a program which emphasizes system-wide rehabilitation, conveyance and pumping upgrades and wet weather improvements to the South Wastewater Treatment Plant. This modified program will rely more on the rehabilitation of the sewer collection system, pump station and transmission improvements, the construction of a flow equalization basin at the South Wastewater Treatment Plant, and improvements to the South Wastewater Treatment Plant Facility.

With a customer base over 138,000, the Parish's sanitary sewer system serves a population of approximately 425,000. The system is extremely complex, consisting of more than 400 pump stations, 10.5 million feet of separate gravity and pressure sewer system pipes and three major treatment plants. Like many other cities, Baton Rouge has encountered many overflow problems with this aging system which has led to the inception of the Sanitary Sewer Overflow (SSO) Improvement Program. The SSO Improvement Plan is progressing at a steady pace. Forty-nine projects have been completed, twenty-nine are under construction and twenty-eight are under design. The approximate value of these projects, either completed, in the design phase, or under construction at the end of the first quarter of 2014 was \$1.5 billion.

A comprehensive financing model has been developed and is being utilized by the Finance Department and Public Works to manage the finances of the Sanitary Sewer Improvement Program. The first annual 4% sewer user fee increase was implemented on January 1, 2004. Annual 4% sewer user fee increases will continue to be levied throughout the life of this program. In order to mitigate additional increases in the sewer user fee, the City-Parish will continue to seek low interest loans, federal grants, and state grants. As of December 31, 2013, the City-Parish had appropriated over \$2 billion for sewer capital improvements, including funding from long-term bonds, impact fees, EPA grants, and pay-as-you-go funding. This \$2 billion represents all capital appropriations since the inception of the Comprehensive Sewerage System Enterprise Fund in 1985.

One-Half Percent Road and Street Improvement Program

On October 15, 2005, the citizens of East Baton Rouge Parish approved an extension of the current one-half percent (½%) sales and use tax for road and street improvements. The proposition offered to voters extended the so-called "pot-hole" tax for an additional 23 years until 2030, and allowed for 70% of the proceeds to be used for the construction of new roads, widening of existing roads, intersection and signalization improvements, as well as other transportation improvements. In this new road construction program, called the "Green Light Plan", the long-term issuance of debt was authorized, which over time will allow for an accelerated road construction schedule and alleviate the effects of inflation on project costs.

Through a referendum, voters dedicated 27% of the proceeds to the recurring road rehabilitation project, and 3% of the tax to the beautification and street enhancement projects. The road rehabilitation program functions with projects prioritized on a six-month basis. The beautification allocation includes projects such as new sidewalks, curb construction, repairs and improvements that meet the requirements of the Americans with Disabilities Act and landscaping.

As of December 31, 2013, twenty-one “Green Light” projects were in an “active” status ranging from corridor survey/design study through construction. The following projects were capitalized in 2013: Central Thruway (Sullivan to Greenwell Springs), O’Neal Lane (Segment 1), Staring Lane and Mount Pleasant Intersection Improvements.

It is anticipated that approximately 750 miles of additional City-Parish streets and roads will be rehabilitated over a period of 20 years. Special attention will be given to projects which provide safe pedestrian routes to and from area schools and other public facilities.

It is estimated that over the 25-year period from January 1, 2006, through December 31, 2030, the tax along with the issuance of bonds and interest earnings will fund \$707 million in road improvement projects. The remainder of the tax will provide \$303 million for the rehabilitation and beautification components of the program.

AWARDS AND ACKNOWLEDGMENTS

The Government Finance Officers Association (GFOA) of the United States and Canada awarded a Certificate of Achievement for Excellence in Financial Reporting to the City of Baton Rouge and Parish of East Baton Rouge for its Comprehensive Annual Financial Report for the fiscal year ended December 31, 2012. The Certificate of Achievement is a prestigious national award recognizing conformance with the highest standards for preparation of state and local government financial reports.

In order to be awarded a Certificate of Achievement for Excellence in Financial Reporting by GFOA, a governmental unit must publish an easily readable and efficiently organized comprehensive annual financial report with contents conforming to program standards. Such reports must satisfy both Generally Accepted Accounting Principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. The City-Parish has received this award each year for the 25-year period ending December 31, 2012. I believe our current report conforms to the Certificate of Achievement Program requirements, and we are submitting it to GFOA to determine its eligibility for a certificate.

In addition, the City-Parish also received the GFOA's Award for Distinguished Budget Presentation for its annual operating budget prepared for the fiscal year covered by this Comprehensive Annual Financial Report. This was the twentieth consecutive year that the department received this award. In order to receive this award, a governmental unit must publish a budget document that meets program criteria as a policy document, an operations guide, a financial plan, and a communications device.

The preparation of this report on a timely basis could not have been accomplished without the dedicated services of a highly qualified staff. I also acknowledge the thorough, professional, and timely manner in which the audit was conducted by our independent auditors, Postlethwaite & Netterville, APAC. We thank the Mayor-President and the Metropolitan Council for their support of excellence in financial reporting and fiscal integrity.

Respectfully submitted,

Marsha J. Hanlon
Finance Director
