The provisions in the Unified Development Code were originally adopted and became effective on November 20, 1996.

Section 1.2 Relationship to Adopted Plans

The regulations established by this Unified Development Code implement the comprehensive plan adopted by the Metropolitan Council for the purpose of promoting health, safety, morals, and the general welfare of the community. They have been designed to lessen congestion in the streets; to secure safety from fire, panic and other dangers; to provide adequate light and air; to prevent overcrowding of land; to avoid undue concentration of population; to facilitate the adequate provision of transportation, water, sewerage, schools, parks and other public requirements. They have been made with reasonable consideration among other things, to the character of the district, and its peculiar suitability for the particular uses; and with a view of conserving the value of buildings and encouraging the most appropriate use of land throughout the community.

Section 1.3 Interpretation of the Unified Development Code

In interpreting and applying the provisions of the Unified Development Code, the promotion of the public safety, health, convenience, comfort, morals, prosperity, and general welfare shall be held to be the minimum requirements. It is not intended by the Unified Development Code to interfere with or abrogate or annul any easements, covenants, or other agreements between parties, except that where a conflict may exist or develop between the regulations and restrictions, or other applicable legal restrictive regulations, then the more restrictive regulations shall control.

Section 1.4 Minimum Requirements

Use of all premises in the City-Parish shall be in accordance with the standards established in this Unified Development Code, which shall be considered the minimum standards permitted.
