EMERGENCY PREPAREDNESS IN THE PALM OF YOUR HAND

The Red Stick Ready smartphone app provides an “on-the-go” resource for official, real-time communications and updates during emergency response and disaster situations.

- Fully integrated with the City-Parish’s emergency monitoring system used to prepare for and manage emergency events, which allows you to easily track the status of road closures, sand bag availability, office closures, shelter locations, and more
- Access a variety of digital maps managed by the City-Parish such as a current weather map and real-time traffic map
- Links directly to Red Stick Ready’s social media accounts for real-time updates pre-, during, and post-emergency
- Includes helpful informational tips and checklists such as family emergency planning, hazard tips, hurricane information, and emergency contact info
- Features “push notification” capabilities that inform users of urgent emergency situations or major announcements, regardless of whether the app is currently open or running
- The My Government Services interactive tool utilizes your phone’s geolocation features to automatically provide you with information specific to your address, including garbage and recycling pick-up schedules to the nearest fire and police stations
- Free download on the App Store or Google Play Store (search “Red Stick Ready”)
