

**Governor's Office of Homeland Security
and Emergency Preparedness
State of Louisiana**

JOHN BEL EDWARDS
GOVERNOR

JAMES B. WASKOM
DIRECTOR

COS-2019-0701-09

July 1, 2019

Dear Directors,

This letter is to inform you of IA PDA results for incident period of June 5-6, 2019. Multiple iterations of severe weather, including flash flooding, heavy rain, and tornadic activity swept through the State of Louisiana June 5 – 6, 2019. Requests for Individual Assistance (IA) Preliminary Damage Assessments (PDA) were received through WebEOC on June 10th, June 17th and June 19th, 2019. GOHSEP completed all IA PDAs for the requesting parishes by Friday, June 28th. Please see below for a summary of the completed IA PDAs for this event:

Parish	Affected	Minor	Major	Destroyed	No Damage	Not Accessible	Total
East Baton Rouge	37	329	14	0	8	0	388
Livingston	18	65	2	0	7	5	97
St. Martin	70	41	0	0	4	0	115
Total	125	160	16	0	19	5	600

Based on the new Individual Assistance Declaration Guidance and Rules and historical data from previous events, these numbers do not support a request to FEMA for Individual Assistance. The parishes should work with local resources, private sector partners, and our nonprofit/volunteer organizations to assist with recovery efforts.

If you have any questions, please do not hesitate to contact me at 225-358-5300 or casey.tingle@la.gov.

Sincerely,

Casey Tingle
Deputy Director
