

2019 STEM Summer Camp

Please join Bethel AME Church and Co-sponsor Councilwoman Tara Wicker in celebrating the Closing Ceremony of the 2019 STEM Summer Camp. This annual camp has been a free learning opportunity for 6-12th grade students in the community. The camp is geared towards developing skills in science and math through utilization of fun and educational projects.

LSU Engineering and Biology students as well as LSU alumni participated as volunteer instructors for the camp this year. In addition, all of the refreshments for the entire week of camp were donated by local SBR vendors. "This truly has been an awesome collaboration," said Councilwoman Tara Wicker. "To see the impact that this camp is having in the hearts and minds of these kids has been so rewarding."

This year's camp theme was "I Lost My Cool." The focus has been the environment, global warming, and coastal preservation. The week will conclude with attendees' presentation of their projects and a summarization of the week's learning objectives. Please come out and help us support and applaud their efforts and hard work.

Date: Friday, July 26, 2019

**Location: Leo S. Butler Community Center
950 E. Washington St.
Baton Rouge, Louisiana**

Time: 5 p.m. to 8 p.m.
