The meeting will be at the **McKinley Alumni Center**, 1520 Thomas H. Delpit Dr.

Multiple officials will be on-hand to discuss the numerous current and planned transportation projects impacting the South Baton Rouge community. The agencies that will be represented at the meeting include the Louisiana Department of Transportation and Development, the City-Parish Department of Public Works, the Capital Area Transit System, BREC, the Downtown Development District, LSU's Transportation Department, the Kansas City Railroad, the Water Campus, the East Baton Rouge Public Housing Authority, and more.

“Our South Baton Rouge neighborhood is growing by leaps and bounds, which can be both exciting and challenging,” said Councilwoman Tara Wicker. “Given the significant developments and opportunities that are coming to our area, it's critical that we hear first-hand from all those involved in helping to bring about this growth, change and expansion while discussing the impact these initiatives are already having and will have in the future on this treasured part of our city and parish.”

“This is an opportune time for the residents of District 10 to come together and view, at one time, the many pieces of the transportation infrastructure puzzle that are being put together to further growth and development in the South Baton Rouge area. Everyone is invited to come out and be a part of this discussion,” said Councilwoman Wicker.
