

## **Parent Partner Program**

While much of the City's businesses and activities will continue to reopen with restrictions, many of the events and programs requiring large groups to congregate, will continue to be prohibited. With school being out for the summer, and in-person camps, for the most part, nonexistent, many youths and young adults are left idle. Parents are also left without constructive activities for their children to engage in and with added responsibilities and stressors to deal with in their day-to-day lives.

To support parents throughout East Baton Rouge Parish in navigating everyday tasks, such as home-school online work, babysitting, running errands, kid's recreational activities, etc., Councilwoman Wicker will be hosting the Parent Partner Program. The Parent Partner Program is designed to recruit and train young adults ages 16-20 to serve parents and assist them during this national crisis, as life slowly begins to resume some normalcy.

Participants will receive training in CPR, soft skills, and business entrepreneurship.

To register or for more information, please call (225) 389-5140.
